

DOMAINE Technologies

OVERVIEW

Domaine Technologies LLC is an SDVOSB delivering CCNP-level enterprise IT infrastructure, cybersecurity, and secure network operations. Anchored by 25 years of DoD expertise and an active Top Secret clearance, we design, optimize, and secure complex, high-availability topologies. Our mission is simple: provide agencies with military-grade operational discipline and advanced routing logic to ensure uninterrupted, fully compliant mission-critical services.

DIFFERENTIATORS: THE TACTICAL ADVANTAGE

- **Zero-Impact Operational Agility:** Engineered to execute complex infrastructure cutovers and firmware provisioning during strict off-hours. We guarantee zero downtime for critical daytime operations.
- **Dual-Threat Security Architecture:** A rare convergence of digital Zero-Trust enforcement (Cisco FTD/ISE) and rigorous physical compliance for Classified Environments (ICD-705 / UFC 4-010-05).
- **Global Joint-Force Expertise:** Led by a CCNP-certified architect with 25 years of multi-branch Armed Forces support across global theaters. Backed by an active Top Secret clearance, we bypass prime contractor administrative bloat to deploy advanced network logic directly to the mission edge.

CORE COMPETENCIES

Enterprise Networking (PSC: 7G21, DG11)

- Advanced routing & switching (BGP, OSPF, SD-WAN)
- High-availability Cisco topology architecture (Catalyst 9300/9500)
- Zero-downtime enterprise cutovers and firmware provisioning

Cybersecurity & Compliance (PSC: DJ10)

- Cisco Firepower Threat Defense (FTD) deployment
- Identity Services Engine (ISE) and Zero-Trust enforcement
- SCIF physical/acoustic network design (Protected Distribution Systems)

Systems & Virtualization (PSC: DF10, DD01, 7E20)

- Scalable Proxmox and Ubuntu Server administration
- Clustered storage arrays and compute resilience
- Tier 3 advanced incident escalation and packet-level debugging

COMPANY DATA

- Entity: Domaine Technologies LLC
- Location: Boerne, TX
- Socio-Economic Status: SDVOSB (Pending SBA)
- Personnel Security: Active Top Secret (TS/SCI Eligible)
- UEI: N3VUELAHABE7
- CAGE: (Pending Application)
- Primary NAICS: 541512 (Comp Sys Design Svcs)
- Secondary NAICS: 541513, 541519, 518210, 811212
- Product Service Codes (PSC): DJ10, DF10, DD01, DG11, 7G21, 7E20
